All-in-One Platform

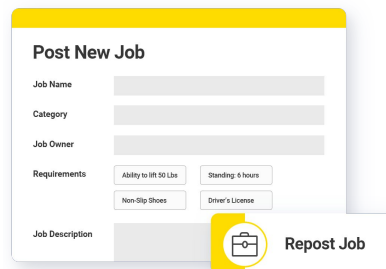

Manage jobs and workers in one simplified, on-the-go platform

Wonolo solves the commonly accepted pain points of temporary hiring - **time, cost, and worker management.**

How it works

1. Post

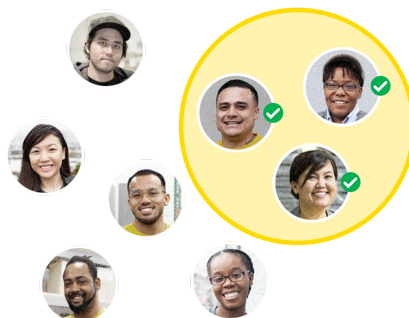

Post a job and create templates for recurring jobs so filling shifts gets simpler as your business grows

The 'Post New Job' form includes fields for Job Name, Category, Job Owner, and Job Description. It also has checkboxes for requirements: 'Ability to lift 50 lbs', 'Standing 6 hours', 'Non-Slip Shoes', and 'Driver's License'. A 'Repost Job' button with a calendar icon is located at the bottom right.

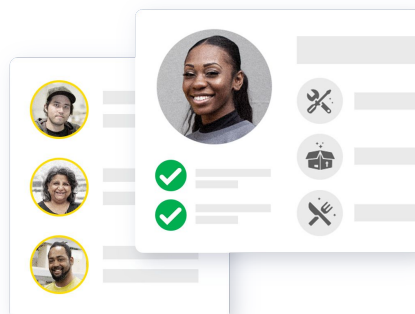

2. Match

Match with high-quality local workers based on qualifications you choose

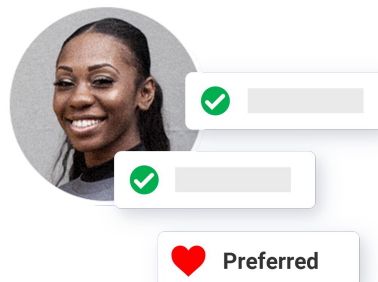

3. Prepare

See profiles of workers you match with and know their faces before they arrive

4. Approve

Approve workers after they complete the job with the option to 'favorite' workers you want to invite back
