

## COVID-19 Safety Programs

Our top priority is to ensure a safe, productive work environment for customers and Wonoloers. Below are processes & programs introduced to help our community stay healthy and maintain safe workplaces.

### Pre-launch Health Checklist

Automated [Pre-Job Health Checklist](#) sent to Wonoloers ahead of their scheduled job.

- A health checklist, asking if a Wonoloer was diagnosed with or exposed to COVID-19, is sent prior to the start of the job.
- Recommended precautionary measures are provided, including withdrawing from jobs and self-quarantining, if a positive diagnosis or potential exposure are indicated.

### PPE Access

Access to PPE kits available for all customers and Wonoloers.

- Wonoloers can purchase PPE kits at a subsidized cost through the app and [Wonoloer Store](#).
- Providing PPE to all workers is highly encouraged and customers can access competitively-priced kits through the [Requestor Store](#).

### Quarantine Pay

Financial help for Wonoloers exposed to or diagnosed with COVID-19.

- Wonoloers diagnosed with COVID-19 and/or ordered to quarantine by a recognized public health authority are eligible for financial assistance for up to 10 days.

### Safety Options & Policies

Additional safety options for customers to help keep a safe work environment.

- Customers can add additional health screenings with Wonolo's [Workplace Hygiene \(WH\) Badge](#), making it required to accept jobs.
- The Workplace Hygiene badge is earned once a Wonoloer reviews best practices to prevent the spread of COVID-19 and passes an online assessment.
